A VALUABLE INVENTION.

A Mason County Man Contrives a Car-Coupler Which is Attracting Attention From Railroad Men.

During the past two or three months mention has been frequently made in the columns of the BULLETIN of a car-coupler which some citizen of the town of Washington had invented. The attention of practical railroad men is being called to this invention at present, and it is attracting a great deal of attention from them, and promises to supersede the defective couplers now in use and which cause the loss of so many lives annually.

The car-coupler referred to is the invention of Mr. O. B. P. Lurley, oldest son of Mr. W. A. P. Lurley formerly of this city. Mr. Lurley is a man of an inventive turn of mind, as a number of contrivances gotten up by him in the past attest.

At a convention of the master mechanics of the different railroads in the United States, held some time ago, it was decided to recommend at a future meeting for general adoption the car-coupler which should be found to be the most useful, safe and expedient, and all inventors were requested to send their inventions to the Patent Office at Washington. The cause of this was the fearful loss of life annually among brakemen and the large amount of property destroyed by defective couplers, and a change was thought to be imperatively necessary. Nothing has been more a subject of thought among inventive minds than the car-coupler, and there are probably more patents issued for them than on any other one device known. It is estimated that fully 3,000 patents have been taken out and they are still rolling in at the Patent Office at the rate of from ten to fifteen a month.

Mr. Lurley turned his attention to the coupler some time ago, and the result is the invention which is now attracting attention. After inventing the coupler Mr. Lurley found that he had not the means at hand to enable him to get it before the railroad men of the country, and he accordingly sold a half interest in it, we understand, to Mr. E. F. Taylor, and the two are now jointly interested in the invention. From a statement in the Louisville Post, it seems that Mr. George Forman, of that city, has also secured an interest in the invention.

Mr. Taylor is now in Louisville, having gone there a week or so ago, where he has one of the couplers on exhibition. The Post of that city says it is attracting a great deal of attention from practical railroad men there. "It is pronounced by them," adds the Post, "to be the simplest, safest and most perfect coupler ever seen, and in their opinion deserves to come into general use. This car-coupler works automatically, does away entirely with the necessity of brakemen going between the cars, and thereby endangering their lives, and is so simple that any man or boy can successfully work it. By a peculiar arrangement trains having the coupler on its cars may be immediately and safely separated, even while in motion, from the top or either side of the car. The gentlemen interested have certainly a valuable invention."

Messrs. Lurley and Taylor applied for a patent some time ago.

A Wonderful Freak of Nature

is sometimes exhibited in our public exhibitions. When we gaze upon some of the peculiar freaks nature occasionally indulges in, our minds revert back to the creation of man, "who is so fearfully and wonderfully made." The mysteries of his nature have been unraveled by Dr. R. V. Pierce, of Buffalo, and through his knowledge of those mysteries he has been able to prepare his "Golden Medical Discovery," which is a specific for all blood taints, poisons and humors, such as scrofula, pimples, blotches, eruptions, swellings, tumors, ulcers and kindred affections. By druggists.

Mestayer's "We, Us & Co."

In speaking of Mestayer's "We, Us & Co.," the New York Dramatic Times says "it is an immensely amusing bunch of nonsense, and it appears to be considerably more successful, even, than 'The Tourists.'" The audience which greeted the new Mestayer organization filled the theatre to its utmost capacity, and enjoyed an almost unbroken roar of laughter from the first rising of the curtain to its final fall. It is impossible, in a brief description, to give an adequate idea of the movement of this piece. It is something totally beyond reach of the ordinary pen. The various things which occur in it are so utterly comical, so wholly without coherence, and so completely disconnected, that it is out of the question for anybody to give the right idea of them through the columns of a newspaper."

In consequence of the extreme cold weather, work has been suspended on Huntington's railroad from Newport to Maysville.—Lexington Transcript.

MR. HENRY L. NEWELL, ex-Mayor of this city, and Miss Mary Agnes Thomson will be married this evening at the residence of Mr. Monroe Walker, near Tollesboro. The bride is a relative of Mr. Henry Barkley, and is quite well known in this city. Her home is near Tollesboro. Rev. W. S. Priest, pastor of the of the Christian Church of this city, will officiate at the nuptials.

MENTION was made a few days ago of the death of Mrs. Mary A. Case at Aberdeen, at the age of seventy-seven years. Miss Harriett Ellis, a sister of the deceased, died the same day at the age of seventy-five years, at the home of her brother, near Manchester. There was but six hours difference between the two deaths. The deceased belonged to a family of eleven children, only three of whom are now living, to-wit: John Ellis, Jesse Ellis and William Ellis.

At Cynthia's last Monday a fellow representing himself as Mr. Smith, of Millersburg, went to the National Bank and tried to get a check for \$75 cashed, it having the signature of Mr. Thomas Thorn to it. Mr. Withers, the cashier, recognized the signature as being forged and had Smith arrested. Before he was placed behind the bars he was searched and several checks with the forged signatures of some of Cynthia's best citizens were found upon his person.

The Mt. Sterling Sentinel-Democrat says: "Colonel J. T. Hazelrigg and Captain T. J. Henry, of West Liberty, have purchased the 'Cottage' and 'American' Hotels, and several other houses in Morehead. We understand that these gentlemen and several other West 'Liberteens' will shortly move to Morehead. This is the nucleus of a new and better citizenship in that fated town, and when all the old war 'horses' have evacuated the ranch, Morehead will don the robes of peace and prosperity, and Rowan County will again take its wonted business and social position in the Commonwealth."

The Lexington Press says the trial of Mr. Thomas M. Green will probably occupy two days. There is a large number of witnesses to be examined for both sides. Among the witnesses for the defense is N. M. Leach. Messrs. James H. Beauchamp, E. L. Hutchinson, M. C. Alford, and Judge Denny, of Lexington, John H. Welch, of Nicholasville, and Hon. Rodney Haggard, of Winchester, are the attorneys for the Commonwealth, while Mr. Green is represented by Messrs. George B. Kinkead, R. A. Buckner, R. A. Thornton, J. D. Hunt and Hon. W. H. Wadsworth. It will be seen that a fine array of legal talent has been secured by both sides.

The "B. B. P." Party.

"Misses Sophie Albert and Bessie Johnson will entertain in honor of Miss Mattie Green, of Augusta, and Miss Sue Ewing, of Pittsburg, Tuesday evening, November 29, 1887, at the home of Mrs. James A. Johnson on East Third street." Such were the invitations issued last week.

The spacious parlors were decorated last evening with rare exotics. At 8 o'clock the lady guests on the arm of their escorts filed into the presence of the receivers, and after a few words of greeting retired to the rear preparatory to having the meaning of the mystic letters "B. B. P." divulged. All present plainly showed the strain of curiosity under which they rested. Soon a gilded board with a hole cut square in the center was placed in position in one of the parlors. Then did it dawn over the minds that a "bean bag party" was to be enjoyed. Sides were chosen and for one hour did each guest try to win the exquisite prizes which were to go to the lady and gentleman gaining the greatest number of points. When all had thrown, the names were called, showing Miss Mary Beardsley to have won the most points among the ladies, while Mr. J. G. Wadsworth carried off the prize among the gentlemen.

The space was soon cleared and dancing indulged in for the rest of the evening. At twelve a delightful supper was served, each gentleman being the waiter for his company—quite a new idea, and one prevailing to a great extent in Washington society. At one o'clock the guests left, showering upon the lovely hostesses many expressions of genuine feeling of pleasure for the evening spent in their society.

How E. Steiner, of Temple, Won a Prize.

Something of a sensation was created yesterday morning by the announcement that a tenth ticket which had won the second capital prize of \$50,000 in the Louisiana State Lottery, in the drawing of Tuesday, was held by E. Steiner, of the clothing and furnishing establishment of M. Schram, on Twelfth street. Telegrams confirming the good news were received later in the day, and "Steiner" was the recipient of congratulations on all sides. The lucky ticket was \$1,503, a tenth of which he held.—Temple (Tex.) Weekly Times, September 17th.

CHOCTAW.

Some farmers took advantage of the warm rain last week, and were busy stripping tobacco. A few crops of tobacco have been sold at 20 cents. Miss Mollie Sisson, the belle of Choctaw, has returned from a visit of several weeks in Robertson County. Mrs. S. Evans died on the 21st and was buried at Flemingsburg on the 23rd. She left a large family to mourn her loss. She was a Christian woman, much loved by all who knew her. Two of Choctaw's young men talk of going West soon.
